# Who We Are

**MOXIE Theatre is a professional non-profit theatre located in San Diego, California, founded in 2004. Our mission is to create more diverse and honest images of women+ for our culture using the intimate art of theatre.**

MOXIE produces an annual season of three to four mainstage productions written and directed by women+, and a New Works Festival dedicated to developing new full-length works and short plays by diverse women+ playwrights. At least 50% of playwrights produced are people of color, as well as at least 50% of artists and technicians hired every year. We produce plays that break new ground either through subject matter, style, or by conquering stereotypes.

MOXIE is proud to provide career-launching professional opportunities to many emerging women+ artists, and to offer educational opportunities to students in schools that primarily serve marginalized and underserved populations. Our theatre is creating a pipeline for women+'s work and inspiring audiences to create change in their own communities.

## The MOXIE Awards

**The MOXIE Awards Gala honors women+ doing impactful work in various industries throughout the San Diego community. Honoring women+ who are making a difference in our community allows us to expand our impact beyond the confines of theatre. This event not only raises funds to support our continued work on stage, but highlights amazing local women+ and the need to continue increasing gender parity and representation in all industries.**
